Contact: Josephine Piracci :: 518.371.8622

Architect:

Woodward, Connor, Gillies and Seleman Architects
20 Corporate Woods Boulevard
Albany, NY 12211
Contact: Bill Connor :: 518.434.2556

LeChase Role:

General Contractor

Value:

\$15 million

Schedule:

06/05 - 07/06 (13 months)

Project Description:

This project highlights a new 55,000 SF library to be built on 11 acres of land off Moe Road adjacent to Arongen School. The new two-story library features a larger space for growing the collection, more seats for general reading, expanded and more flexible study areas, a larger computer lab and reference area, and a separate, larger children's library with its own reference desk.

The Library Board was notified by the New York State Energy Research and Development Authority (NYSERDA) that it has been awarded a grant to pursue a Leadership in Energy and Environmental Design (LEED) rating. This is in recognition of the extensive energy saving features included in the design, materials and operating systems for the new library. The energy-efficient design is expected to result in significant operating savings over the life of the building.
