LeCHASE’S ROLE:
Construction Manager

VALUE:
$13 million

SCHEDULE:
August 2005 to June 2006

PROJECT DESCRIPTION:
This project consisted of the demolition and renovation of the existing Finger Lakes Performing Arts Center (renamed CMAC).

With the intention of attracting bigger name performers, the facility was expanded to include 5,000 covered seats, 10,000 lawn seats, a larger stage and an enhanced concession building. Also included were 50 VIP boxes with four seats each and a state-of-the-art sound and lighting system.

This project was completed on a very tight budget and schedule, which included construction during the winter months.
